## ACCIDENT MAY BE FATAL TO POPULAR METHODIST PASTOR

**Dr. J. J. Dickey Is Badly Injured When Struck By Automobile at Third and Market Street This Morning.**

Dr. J. J. Dickey, the veteran pastor of the "Little Brek Church," received injuries which may prove fatal when he was struck by an automobile owned the Keith & Keith garage and driven by Charles Brocken, colored chauffeur, at Third and Market street this morning at about 9 o'clock.

The aged pastor had just left the Ledger office where he had written the weekly Sunday School lesson for this paper, and was en route to the other newspaper offices to leave his weekly church announcement. He was crossing Third on the east side of Market. Brocken was driving West on Third street en route to Germantown with members of the Fitch family in the machine who were going to attend a funeral. The driver was arrested by Chief of Police Orr on a charge of fast driving.

There seems to be considerable difference among the eye witnesses as to just how the accident happened but it appears that the machine was moving at a good rate of speed. The driver sounded his horn and the aged minister is said to have stepped back in an effort to get out of the way of the approaching car. He was thrown up onto the front of the machine and carried some distance before he dropped to the pavement and was run over. His right thigh is broken as is also his right shoulder, his right arm is also broken above the elbow and the right leg is again broken just above the knee.

Physicians cannot say at this time whether he is internally injured or not but because of his advanced age, it is feared he will not recover from such serious injuries. At 3:15 hospital authorities reported he was resting as well as could be expected.

There is probably not another man in Maysville who is more universally liked than Mr. Dickey and the news of his accident spread over the city like wildfire.

In the Mason County Court this afternoon Mr. A. W. Thompson was appointed administrator of Hugh M. Thompson, deceased, and he qualified as such with C. L. Wood as surety on bond.

## HIGH SCHOOL FIELD DAY FOR STATE AT PARIS

**Y. M. C. A. Will Back Big Field Meet To Be Held at Paris During May—Expect Maysville HI to Enter.**

Mr. L. M. Zerfoss, district Y. M. C. A. Secretary, was in Maysville today and while here announced a big High School Field meet to be planned for the cities and towns in this district to be held in Paris during the first or second week in May next year. While here Mr. Zerfoss interested several at the High School and several of the Mason county schools are expected to send teams.

There will be eight counties participate in the meet and those attending will be under no expense except their railroad fare as the Paris folks will entertain the High School athletes. On Friday night of the week there will be a great reception given at the Paris Y. M. C. A.

Secretary Zerfoss announces the program for the meet as follows:

Class A—Boys under 115 pounds.

Class B—Boys over 115 pounds.

Events—100 yard dash; 50 yard dash; running broad jump; running high jump, hop, skip and jump; body tug-of-war; competitive setting-up exercises. The teams may be of ten or under and the school entries must be made before March 1st, 1921.

## KENTUCKY'S SENATOR-ELECT

Hon. RICHARD P. ERNST

## ELECTION OF COVINGTON MAN IS NOW ASSURED

R. P. Ernest's Majority Over Senator J. C. W. Beckham now Exceeds 7,000 Votes — Cox Maintains Lead.

Richard P. Ernst of Covington, Ky., has been elected United States Senator on the Republican ticket in Kentucky by majority that will exceed 7,000, according to practically complete returns, received Friday. Returns from 3,214 precincts out of 3,226 in the state gave Ernst 462,490 and his Democratic opponent, Senator J. C. W. Beckham, 455,602.

The contest was nip and tuck and it required the returns from the last 50 precincts to definitely determine who won the race. Governor Cox, however, has a plurality of 3,958 in the state. The vote in 3,217 precincts gave Cox 462,581 and Harding, 458,623. As the result of Mr. Ernst's victory the Republicans will have 58 seats in the United States Senate, the Democrats 37. Chesley H. Seay, Republican campaign manager, Friday characterized as "absurd" the charges of irregularities made by John L. Gray, the Democratic State campaign chairman. "The charges made by the Democrats regarding Republican counties in Kentucky are ridiculous and were made to nullify their defeat," said Mr. Seay.

**ELECTORAL VOTE IS 400.**

Harding's Electoral Vote Grows as Does Also Republican Majorities In Senate and House.

New York, November 5.—With President-elect Harding's electoral vote 400, with a strong possibility of its reaching 404, out of a possible 531, and the complexion of the new Senate set down as 59 Republicans and 37 Democrats, Republican leaders awaited, today, belated returns on eight contests in six states to fix the exact size of the Republican House majority.

With 400 votes in the electoral college, Harding will have a majority of 269, the greatest in history, with the one exception of 1912, when Wilson had a plurality of 347 and a majority of 339.

Exclusive of the eight undetermined

seats in the Lower House, the Republi-

cans had 286 members to 137 Democ-

rats and four of other designations,

a plurality of 149—the greatest ever

held by any party in the House. The

nearest approach to it was in the Fifty-second Congress, which the Demo-

crats had a lead of 148.

## BIG EAGLES HERE FOR PARTY TO BE GIVEN TONIGHT

Local Order of Eagles Honored With Visit From National Officers and Big Time is Planned For This Evening at Eagles Hall.

The Maysville lodge of Eagles, one of the most active fraternal organizations in this section, is highly honored today by a visit from the President of the national organization, Hon. E. D. Weed, the National Organizer, Mr. Conrad H. Mann and the State Deputy, Mr. Harry Pelzer, of Newport.

A class of twenty-five men were initiated by the local organization on Thursday evening as the climax of a great membership drive which has been on for several weeks. The members of the order had a great time at the initiation last night and they are planning for the time of their lives tonight.

The big celebration tonight will come to a grand climax with a banquet. All the visitors will make addresses and several prominent members of the local order will respond.

Tonight's meeting promises to be one of the high water marks in the history of the local order of Eagles.

## SECOND DAY OF FAIR WILL BE LEWIS COUNTY DAY

Trinity Band to Head Big Delegation Of Lewis County People to Attend Tobacco Fair on Second Day.

Arrangements were completed at

the Chamber of Commerce this morn-

ing to make the second day of the 1920

Corn and Tobacco Fair Lewis County

Day. This arrangement was made

when it became known that there was

a large delegation of Lewis county to-

bacco and corn farmers who were

anxious to attend the fair in a body

headed by their famous Trinity Boys' Band.

Lewis county farmers have always

been interested in the Mason county

Corn and Tobacco Fair but they are

taking much more interest in the fair

this year because of their organiza-

tion through the Lewis County Farm

Bureau. It is expected that there will

be several special arrangements made

by the managing committee for the

Lewis county visitors who will be

given a royal welcome.

The majority of the farmers will

come to Maysville in automobiles and

will march to the fair building in a

body headed by their Juvenile Band,

of which they are all justly proud.

### OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

### ALL UNITS SHOULD VIBRATE IN UNISON.

There is an atmosphere of abundance throughout the United States. Bumper crops are harvested and housed East, West, North and South. Nature responding to the touch of man's hand has produced an abundant harvest. There is enough and to spare. But the matter of distribution is in the future, and however much there may be in the garners, he who fails to make connection with his share is in just as bad case as though the good old earth had been niggardly instead of generous with her favors. To everything worth while there is a price. If we do not produce the price we do not get the goods. It is up to us to get busy at his own particular task and to work full time each in his personal productiveness.

Conditions are greatly improved in many lines of American industry, but they are not normal. It behoves everybody to get to work and make every day a full-time period of production or conservation. Prices are readjusting themselves, slowly to be sure, but steadily, and possibly because of the slowness along lines of safety. But stabilization depends on concert of action and mutuality of conformity to needs and supplies. Primarily everybody should be at work at a reasonable wage speeding up production. Then will every one have constituted him or herself an active agent in adding to the sum of life's commodities and stabilizing business in its every branch at a sane and safe level for permanency. Secondly everybody should not only put in full time producing, but equally full effort conserving.

Thrift consists first in making and second in saving. It is a composite of production and conservation. And just now thrift, in its fullest sense, is quite as essential to each of us as it was to Horatio, and will in its application have a much greater reaction upon the welfare of society, which after all is but the composite of ourselves.

New York's rent law for the protection of tenants against landlord profiteering has been made null by a Supreme Court decision, adding to the accumulative evidence that there are few barriers to crime that can not be circumvented.

Looking for a \$13,000 milligram of radium which an irritated patient has emptied into the hospital sewer outflow must be quite as exciting as the traditional search for the needle lost in a haystack.

WASHINGTON LETTER.

WASHINGTON, D. C.—The next session of Congress, which meets December 6th, and which will be the last and third session of the Sixty-Sixth Congress, will last only until the inauguration of the new President, President, March 4, next, when the session will expire by limitation of law. Including the Christmas holidays, which nearly always last ten days, the next session will have less than 70 working days. It will readily be seen from this limited time that the December session will not be able to enact much legislation. It will do well to pass the fourteen big annual appropriation bills, and adjourn in time for the Presidential inauguration.

There is another thing, besides lack of time, which will prevent much, if any new legislation in the December session. As a new Congress and a new President will take the helm after March 4 there will be a general desire on the part of all Congressmen to defer important legislation until the new President makes his desires known, and until the new members of Congress, of which there will be many, can participate in National legislation.

The first session of the Sixty-seventh Congress will be a special session called by the new President soon after his inauguration next March. This session will last a long time, and may even run into the regular December session of Congress, 1921. At this special session all the vast reconstruction problems of the new Administration will have to be considered and solved, and it will take months to do that. The last session of Congress did not really have time to grapple with reconstruction problems, and neither will the December session. Reconstruction will be effected in the special session of the new Congress. These problems are as gigantic and important as those which confronted the Federal Government at the beginning of the world war.

Though the December session will not have time to take up the problems of Government, nevertheless there are two matters of legislation besides the appropriation bills, which that session will endeavor to put through. One of them is revision of the tax laws, and some sort of relief from the housing situation which has grown serious in nearly every urban community in the

## SCHOOL WEEK TO BE OBSERVED DURING DECEMBER

Federal Commission of Education Is Making Plans for General Celebration of School Week In Country.

Washington. — "School Week" will be observed throughout the nation the week of December 5-11, as the Commissioner of Education is designating the first full week in December as "School Week," and is requesting the governors and the chief school officers of the several states and territories to take such action as may be necessary to cause the people to use this week in such way as will most effectively disseminate among the people accurate information in regard to the conditions and needs of the schools, enhance appreciation of the value of education, and create such interest as will result in better opportunities for education, and larger appropriations for schools of all kinds and grades.

The Commissioner of Education suggests that during this week the public press should give more attention, and a larger amount of space to educational topics than usual, and that on Sunday, December 5, ministers should one or more of their church services for emphasizing the importance of education.

It is further suggested that during the week chambers of commerce, boards of trade, women's clubs, labor unions, farmers' unions, patriotic and civic societies, Rotary Clubs, and Kiwanis Clubs, and other important organizations and associations should devote one meeting to discussion of the needs of education in their states and local communities, holding special meeting if necessary, and that motion picture houses should put on their screens during "School Week" facts and figures in regard to the importance of education, and the condition needs of the schools.

Universities, colleges, and normal schools will be requested to devote the convocation hours of the week to a discussion of education in general, and on their own particular needs, and it is further suggested that all elementary and high school teachers should devote one period each day of "School Week" to this subject, telling the children about education in their local communities and in state and Nation, how the schools are supported and how much money is spent for them, their economic, social and civic value, and that during this week themes of essays and compositions in elementary and high schools relate to education.

A effort will be made in December to completely revise the income tax laws, but because of the lack of time in that session, it is doubtful if any new bill can be enacted into law. Both Democratic and Republican leaders are very anxious to have the tax laws, particularly the income tax, revised from top to bottom. Needless to say every citizen concurs in this desire, for the income tax, it cannot be denied presses heavily on rich and poor alike. In the December session Secretary Houston will ask Congress to make a new law simpler than the present cumbersome statute. One of the most important recommendations of Mr. Houston will be that the Commissioner of Internal Revenue be authorized to make final determinations in any tax assessment. Under the present law a tax case can be opened time and time again until the taxpayer never knows when he is through with litigation with the Treasury. But a lowering of the whole income tax schedule is what is now desired by Congressmen and citizens alike. There are also many imperfections in the present income tax law, as happens usually in all complex statutes, and these must be ironed out in the revision. House and Senate leaders are said to plan not only a general reduction in all schedules, but changes so that big incomes will bear a proportionately larger share of the tax. The "little fellow" will not have to pay as much as heretofore. This will indeed be popular legislation with the masses.

The housing situation will also be considered by the December session. The shortage of homes in every section of the land, except in the rural districts, is almost as serious as the tax burden, and the high cost of living. This problem confronting Congress will have two angles to bring about construction of more homes and apartment houses, and to prevent the rent hogs from further profiteering on the helpless tenant. The situation may result in a Federal law establishing rent commissions in all cities of certain population. Taxation, too, will be considered as a means of relief for the housing shortage. Federal taxes on newly constructed dwellings and apartments now average about 3 percent of the total cost. This is always tacked on the tenant. If the tax were remitted lower rents could certainly be secured. Where rents now are based on 9 percent interest on the investment, three percent of it is tax. With this tax removed there should be a one-third reduction in rents by the landlords.

the several communities, the means of meeting these needs, and of remedying conditions.

State departments of education have been invited to provide information through the public press and otherwise in regard to the conditions and needs of the schools in the several states, and city and county superintendents have been invited to take similar action and it is further suggested that city and county superintendents of schools hold meetings on Friday or Saturday of the week preceding "School Week" for the purpose of discussing these problems among themselves and making definite plans for the proper observance of the week in school land for Friday afternoon and evening meetings.

"The Wires are Already There—"

Sometimes, when folks order a telephone, they say: "It won't take you but a few minutes to install it, because the wires are already on the house."

BUT—

The circuit from the house all the way to the telephone exchange is the one that really counts—

That circuit is released—used for some other subscribers—when a telephone is removed.

Another must be built up for you before your telephone can be installed, and that takes time and work—

That is why it takes longer than "just a few minutes" to install a telephone—because there is a great deal more to do than simply to fasten the instrument on your wall!

## RETURNING TO NORMALCY TO BE THE BIG JOB

Republican Publicly Makes Statement on the Overwhelming Victory of the G. O. P.

Washington, Nov. 4.—"The Victory of Senator Harding and the banishment of Wilsonism from the nation's councils is another manifestation of the inherent good sense of the American people and a renewed proof of the stability of the government under which they live," declares the Republican Publicity Association in a statement issued today by that organization through its President, Hon. Jonathan Bourne, Jr. "Led astray temporarily by the insidious falsehoods and suave promises of men who controlled at the time being one of the great political parties, and convinced that nothing could interrupt the long period of prosperity to which they had become accustomed under Republican administrations, the voters were inveigled into bringing about a change at Washington. But they have seen the folly of their misplaced trust and have emphatically declared that there must be a return to the old tried and true principles of sound government. They have decreed and end to that false altruism that would surrender the priceless heritages of America to the keeping of a group of foreign nations every one of which is jealous of the power and prestige of the United States and would rejoice at an opportunity to draw upon its resources for their own aggrandizement.

"The republic has had a taste of autocracy such as few nations of the world have ever experienced. Gathering into his own hands all the executive power and much of the legislative, the people have seen their President contemptuously throw aside his responsibility to them, and direct the affairs of government solely according to his own impious will, uttering defiance the while to their duly chosen representatives in Congress. By their votes the people have said, 'Stop! The president must be the agent of our will, not his own.'

"The disgusting orgy of extravagance that has run rampant through the years of Democratic control is another of the determining factors that precluded any doubt as to what the result of the election would be. Bidding their time when they could shut down the bars against further waste of their substance, the people have patiently looked on while the wanton profligacy of the Wilson administration has run riot. They have had their revenge, and administered a rebuke that will drive the conspirators into retirement for all time.

"The nation has detected a seeming bond of sympathy between its President and the Bolsheviks of Russia and the radicals within its own borders that has shocked its sensibilities and offended every decent citizen. Flirting with the Lenin government while he was in Paris, Mr. Wilson has repeatedly demonstrated his friendliness for the leaders of radicalism in his own country. It has been an association not becoming to America, an abrupt end to which has been brought by the election of Senator Harding.

"Wage earners and all other voters are alive to the fact that the rapid return of Europe to normal production once more means the flooding of our markets with the products of cheap foreign labor and consequent disruption of the home market unless steps are taken to prevent it through the medium of a Republican protective tariff. By the election of Senator Harding that has been made certain, and the welfare of the American workingman protected for the future. "With Senator Harding in the White House Congress will return once more to its constitutional functions. Legislation by executive fiat will cease, and laws that are passed and money that is appropriated will represent the combined wisdom of over 500 representatives of the people rather than that of a single mind. The country is about to be restored again under a government for the people instead of for a party or individual."

BOOM! BOOM! BOOM!

There was quite an exciting time on Limestone street last night. A jolly crowd were celebrating their victory. The noise was heard for miles. Some one even went so far as calling up the police and when the force arrived they found it was only a jollification party. The person calling up had probably forgotten that it was the end of an election—but perhaps it didn't come their way. Oh, well, anyway, you must laugh with those who laugh, but when you weep you weep alone.

SPEEDING MUST BE STOPPED, SAYS CHIEF ORT.

Chief of Police Harry A. Ort this afternoon called the special attention of the patrolmen to the accident in which Dr. J. J. Dickey was injured this morning and instructed them that they must stop auto speeding in Maysville. He informed the police that they would be held responsible for all speeding on their beats and he asks the public to inform the police headquarters of any speeding they might see.

## LAGRANGE CHOSEN NEXT MEETING PLACE OF STATE REBEKAHS

New President Names Appointive Officers Upon Being Installed in Public Service Thursday Evening — Successful Meeting Closes.

The most successful session the Kentucky Rebekah Assembly has held in a half-century came to a close at DeKalb hall in Second street Thursday evening with the selection of Lagrange as the next place of meeting.

Thursday evening's session was an open one to which the public had been invited and the large hall of DeKalb lodge of Oddfellows was well filled with delegates and visitors. A concert by the Maysville Boys' Band was one of the features of the evening which was greatly enjoyed by the visiting women.

The public installation of the newly elected officers was the big feature of the evening and immediately upon being presented with the gavel and being installed as State President, Mrs. Sourbeer, of Owensboro, named her appointive officers of the Grand Lodge for the year as follows:

Subject—"The Outlook for Lasting Peace."

Group Song.

Prayer.

Scripture Lesson — Isaiah 9:6-7.

Psalm 122:6-9.

Introduction—By leader.

"What a World War Means"—Dorothy Caplinger.

Arbitration Cannot Bring Peace — Mrs. Frank Tollo.

"Some Significant Reasons" — George Martin.

Solo—Wannie Hall.

"Hear the Word of Jehovah" — Alino Mitchell.

"How to Have World Peace"—Prof. R. Y. Maxey.
